Charter

The RMS defines FOLIO release schedules for named FOLIO releases as well as service packs that incorporate functionality specified and development milestones as specified by the development teams. The RMS announces the schedule and any changes to the FOLIO community, provides updates on development staffing changes and release status to the PC, TC, and CC. The release schedules are available on the wiki under Releases. The RMS makes determination for the release of a Critical Service Patch, using the process described here.

Meetings

Meetings are held every other week on Mondays, from 9:00-9:30 AM ET. On demand meetings may occur to address critical requests that can't wait until the next regularly scheduled meeting. Meeting notes are available below.

Topic: FOLIO Release Stakeholders
