

Technical Council

The Technical Council's charter is [here](#). We were officially formed 7 June, 2018.

The role of the Tech Council is to:

1. Set general technical direction, carefully abiding by our 'local decision making where possible' guiding principle.
2. Define processes, procedures and standards required for contributing code to the project
3. Mediate technical conflicts between collaborators or foundation projects
4. Proactively advise the Product Council on technical issues that will require effort and prioritization
5. Respond to requests from the Product Council on technical issues

Members are:
