A: maybe in some cases• CTUR functionality could be setup/managed individually by each library/tenant, but it would be useful/easier to have a central office manage these aspects (especially if central office functionality is a long-term goal anyway) <p>Might be some pieces of ReShare that can be reused/repurposed for FOLIO-specific functionality</p> <ul style="list-style-type: none">• in ReShare - shared index and consortial directory (IPs, etc.) are managed centrally• centralized brokers make it difficult to pass a request to another consortium or resource sharing relationship <p>Some discussion about purpose of a FOLIO-specific resource sharing solution; what are the unique requirements that can't be handled by another solution?</p>
10min	Wrap-up/planning	All	<p>10/30 - develop more details about central office functionality/requirements</p> <p>11/6 - review ReShare</p>
