

2018-09-12 - Meeting Notes

Date

12 Sep 2018

Attendees

Deborah Hamrick, Stephanie Espiand (guest speaker/Folio UI), Khalilah Gambrell, Elizabeth German, Robert DeLuca, Melissa Wallace, Kathy Zadrozny, and Julian Ladisch

Goals

Topics: The first half of the meeting Stephanie Espiand, stephanie@samhaeng.com, talked about her updated Accessibility Guidelines document. The second half of the meeting Khalilah Gambrell discussed the results of the FOLIO testing performed by the Accessibility and Usability Lab (AUL) at CU Boulder.

Discussion items

Time	Item	Who	Notes
30 mins	A11y Checklist for PO's and their designers and developers	Stephanie Espiand	Accessibility Guidelines Document Highlights <ul style="list-style-type: none">Stephanie's document can be found at https://ux.folio.org/docs/guidelines/accessibilityThere are three main chapters: UX, Visual Design, Front-EndOur SIG would like to see links to documentation on how to use screen readers.<ul style="list-style-type: none">Beth German provided links to articles in WebAIM Stephanie can use:<ul style="list-style-type: none">https://webaim.org/articles/screenreader_testing/https://webaim.org/articles/nvda/https://webaim.org/articles/jaws/https://webaim.org/articles/voiceover/It is important all Product Owners know about the Accessibility Guidelines so they will share with the appropriate designers, developers, etc.Stephanie was asked to make the guidelines available from https://dev.folio.org<ul style="list-style-type: none">Kathy suggested reaching out to Zack Burke (zburke@cornell.edu) in order to accomplish this.Stephanie was asked to add a section on focus in the Front-End chapter.<ul style="list-style-type: none">Robert wrote an A11y article on focus management Stephanie may want to reference: https://github.com/folio-org/stripes-components/blob/master/docs/patterns/AccessibleRouting.md#accessible-focus-management
30 mins	A11y test results from CU Boulder A11y and Usability Lab	Khalilah Gambress	Accessibility Testing Highlights <p>Link to Khalilah's slide deck on the results of FOLIO Testing at CU Boulder: https://docs.google.com/presentation/d/1uqjOKqiFuYixVeebdaMml8AWnhVWjVEI0NiaHYiKA7k/edit#slide=id.g4103e197bb_0_0</p> <p>Testing was done against demo.folio.org because it had the largest inventory available</p> <ul style="list-style-type: none">SIG will prioritize the issues discoveredSome issues have already been addressed in later versions of FOLIOExamples of issues still to be addressed include:<ul style="list-style-type: none">Focus is lost when going from an item in the 3rd column of the screen to the full page detailSearch hint needs to be moved from the middle of the page (slide 5)Testers had trouble with the horizontal slide associated with the middle pane (do we need this much information?) <p>Link to the actual results report (also within Khalilah's slide deck): https://docs.google.com/document/d/1BmQxMpmPMDn_vpQdrElnNluktFWCygIF6SNrh7UY/edit</p>

Action items

- Deborah will ask the AUL to reserve another week for a second round of testing in the November time frame.
- Khalilah will share the test results report on the dev slack channel.
- Beth will share checklists of common user tasks in ILS for future FOLIO testing
