

FOLIO App Ideas

One of the great aspects of FOLIO is that the platform is open to anyone to create an app. Ideas for FOLIO apps come from many places, and we want to keep track of them. Feel free to [add your own ideas](#) to this page.

Newly Created App Ideas

Your ideas for new apps are stored in this list as we figure out the best FOLIO Special Interest Group to review the idea.

Key	Summary	Created	Updated
APPIDE AS-12	Automatic file transfer to different file formats	Aug 03, 2018	Aug 03, 2018

App Ideas in SIG Review

The real work in the FOLIO Project is done in [Special Interest Groups \(SIGs\)](#). When your idea is assigned to a SIG, the SIG convener may contact you for more information. And you are certainly welcome to join the SIG meeting to talk about your idea.

Key	Summary	Labels	Created	Updated
APPIDEA S-13	Support for Union catalogs (bi-directional flow)	sig-consort	Oct 02, 2018	Jan 16, 2019
APPIDEA S-2	An app that allows a library to develop their own knowledgebase for customers	sig-mm	Apr 11, 2018	May 09, 2019

App Ideas in PC Review

Sometimes the FOLIO Project may not have a Special Interest Group that is closely aligned with your idea. In that case, your idea is reviewed by the [Product Council](#), where we may form a new SIG to work on your app.

Key	Summary	Created	Updated
APPID EAS-14	Supporting OA business models in Folio. Creating an app for the management of Article and Book Processing Charges (APC/BPC) as well as Transformative/Offset agreements	Apr 18, 2019	Nov 13, 2019

App Ideas On Hold

We may not be ready to take on your idea yet. In that case, a SIG may put the app idea "on hold" while other projects are worked on.
