Attendees

- Brooks Travis

Goals

- Review of INN-Reach Mockups
- Discuss possibilities for managing system configuration

Discussion items

Item	Who	Notes
Updates on INN-Reach mockups based on UX-421	Kimie	
Reviewing Jiras	Brooks	

Notes

Presentation of mock up pages.

Discussion of functions needed in the app.

Two sites could use the same barcode in a large system. System needs to accommodate this.

What terms to use for transaction type? Terms in the app may not be meaningful to circulation workers.

Long term goal is to use native FOLIO check out app for INN-Reach circulation. Currently this is messy. The check out mode inside the INN-Reach app can check out both local items and INN-Reach items.

We don't know how patron renewals will work on the back end.
