Membership
The Support SIG members should expect to serve at least one year. The terms should be rolling so that expertise remains on the SIG rather than everyone leaving the SIG at the same time. If a member wants to remain on the team for longer than one year, they are welcome to stay. The Support SIG meetings will be open to all who chose to participate.

* Support SIG Convener
The Support SIG convener should be an individual who understands the FOLIO community and the development process. The decision should be based on the individual’s skills rather than their role.
